I'm not in the office right now, Jim; if my sign-off is needed today, please initial for me. Thanks. Carl

Thanks. I've added the paragraph to the response and have passed the draft reply on to Sharon for packaging.

Carl: you probably will hear from Joe regarding yesterday's control from Sen. Inouye – the one for S-1 signature for which you wrote a sentence on FEIS closure. Susan requests that you sign off on the grid.

No doubt Susan will want your sign-off on the grid for today's package as well.

Thanks again.

Regarding the Section 106 process, FTA and the City and County of Honolulu are completing a brief evaluation for historic structures in the area of the adjusted alignment. At the same time, FTA is working with other signatories and invited signatories to make some final adjustments on the language in the PA. FTA anticipates that they are close to circulating a final PA for signature to the consulting parties.

Can you put together a few sentences for Jim's letter, Liz? Jim will be looking for some language this morning, I suspect. Thanks. Carl

Here the other Honolulu control I have - the incoming again from Sen. Inouye but this time to the administrator. I could use two sentences on the status of PA closure, plus any comments you might have on my draft reply.

Thanks.
